Our goal is to equip those in Student Ministries with the tools necessary to **BUILD UP** their personal abilities, ministries, and the Kingdom.

BUILD UP is part of that strategy. The seminars are geared to address your ministry needs at your level and ability. Where does your team need sharpening or training? Let us know so we can tailor your seminar day to fit your needs!

BUILD UP is designed as a ministry training event for those in grades 7-12 and the adults who work with them.
